

The Federal Communications Commission

Dear The Federal Communications Commission,

I am asking that you reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. It is unfair to expect those who make few long distance calls to pay the same amount as those who make many long distance calls. I don't mind paying my fair share, but I do resent and do not want to pay someone else's share. Please keep my phone service affordable.

Sincerely,

Leslie McGraw
